3 min: Other approach and Future discussion

Same place at the same time, we are not colleagues.

*“The bell rings. The next person’s cell phone rings, too.
Only one person who first touches the phone earns money, and others do not.
I’m the second person, I should be waiting for my next order.
There are a lot of gig economy workers here. I must touch phones faster than
others to earn the money, always.
Everyone is a competitor if we are in the same place at the same time.”*

Gig Economy Workers and Platform Labor

- Digital labour platforms are growing and presenting both opportunities and challenges to workers (ILO 2021 report)
- Digital platforms became to be
 - common element for
 - Indicators for matching clients and workers
 - ✓ Allocation of worker
 - ✓ Determining pay rates
 - unilaterally determined of social agreement by platforms
 - monitoring tracking and evaluation workers through digital tools and algorithms

Disparities of health service assessment

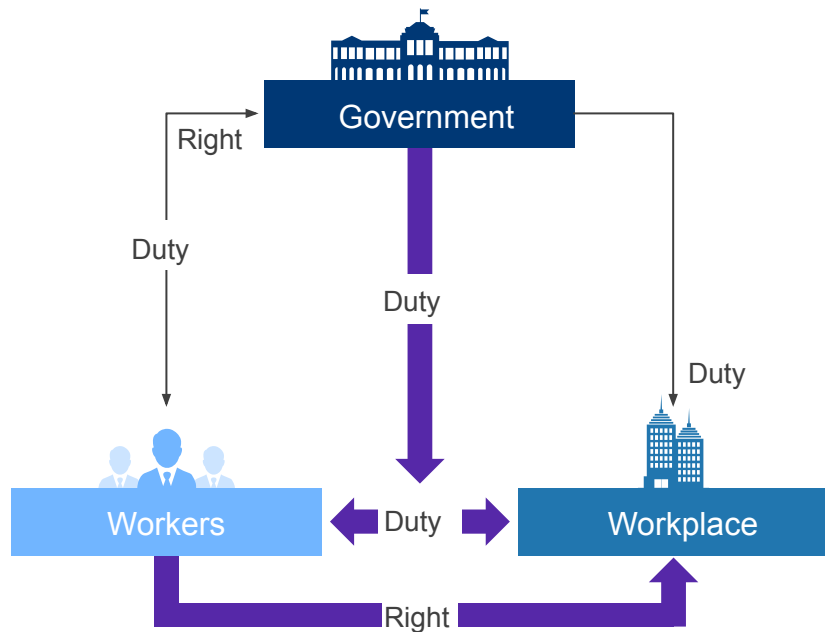

- National Health Check-up is free of charge from Korea Government for every two year. However, only 32-50% of gig economy workers get health check-up during 2 years, while 70-80% of standard worker in company get health check-up for every year.
- There are great inequality of access to health service between gig economy worker and standard worker
- HTN, DM management rate (medication rate, not well control rate)
 - 70%-86% (General Workers) vs 54% (Gig Economy Workers)

WHY?

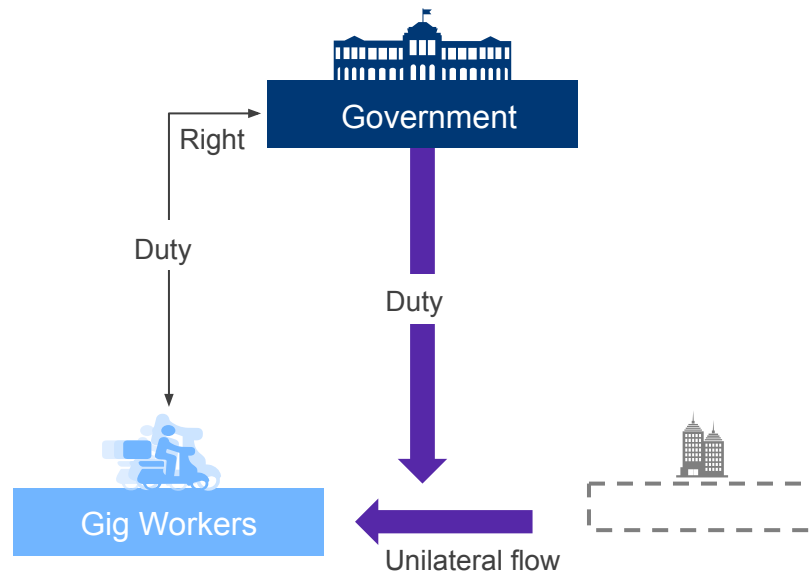

The National General Health Examination is free of Charge, the 80% chronic disease medication cost are compensated by government. However, there are disparities to unmet healthcare between general workers and gig economy workers.

OHS service delivery system in Korea

Traditional System

Gig Economy System

Why, What and How ? to deliver occupational health service

Occupational Health and safety service Trial

- Why (skip in this time)
- What
 - Same service compare to standard workers
 1. Health check up,
 2. Health management,
 3. Compensation
 4. Environmental Check (i.e., algorithm induced injury risk)
- How
 - Service delivery: Preliminary study of “Open Service Delivery Center”
 - Fund Management: Platform Workers Mutual Aid Association

Schematic Overview

- Find Job Identity
- Meeting, Training, Became Trainer
- Make Union of Gig economy workers
- Keep going Research
- Make Social Movement

High regulation of Drunken Driver in Korea

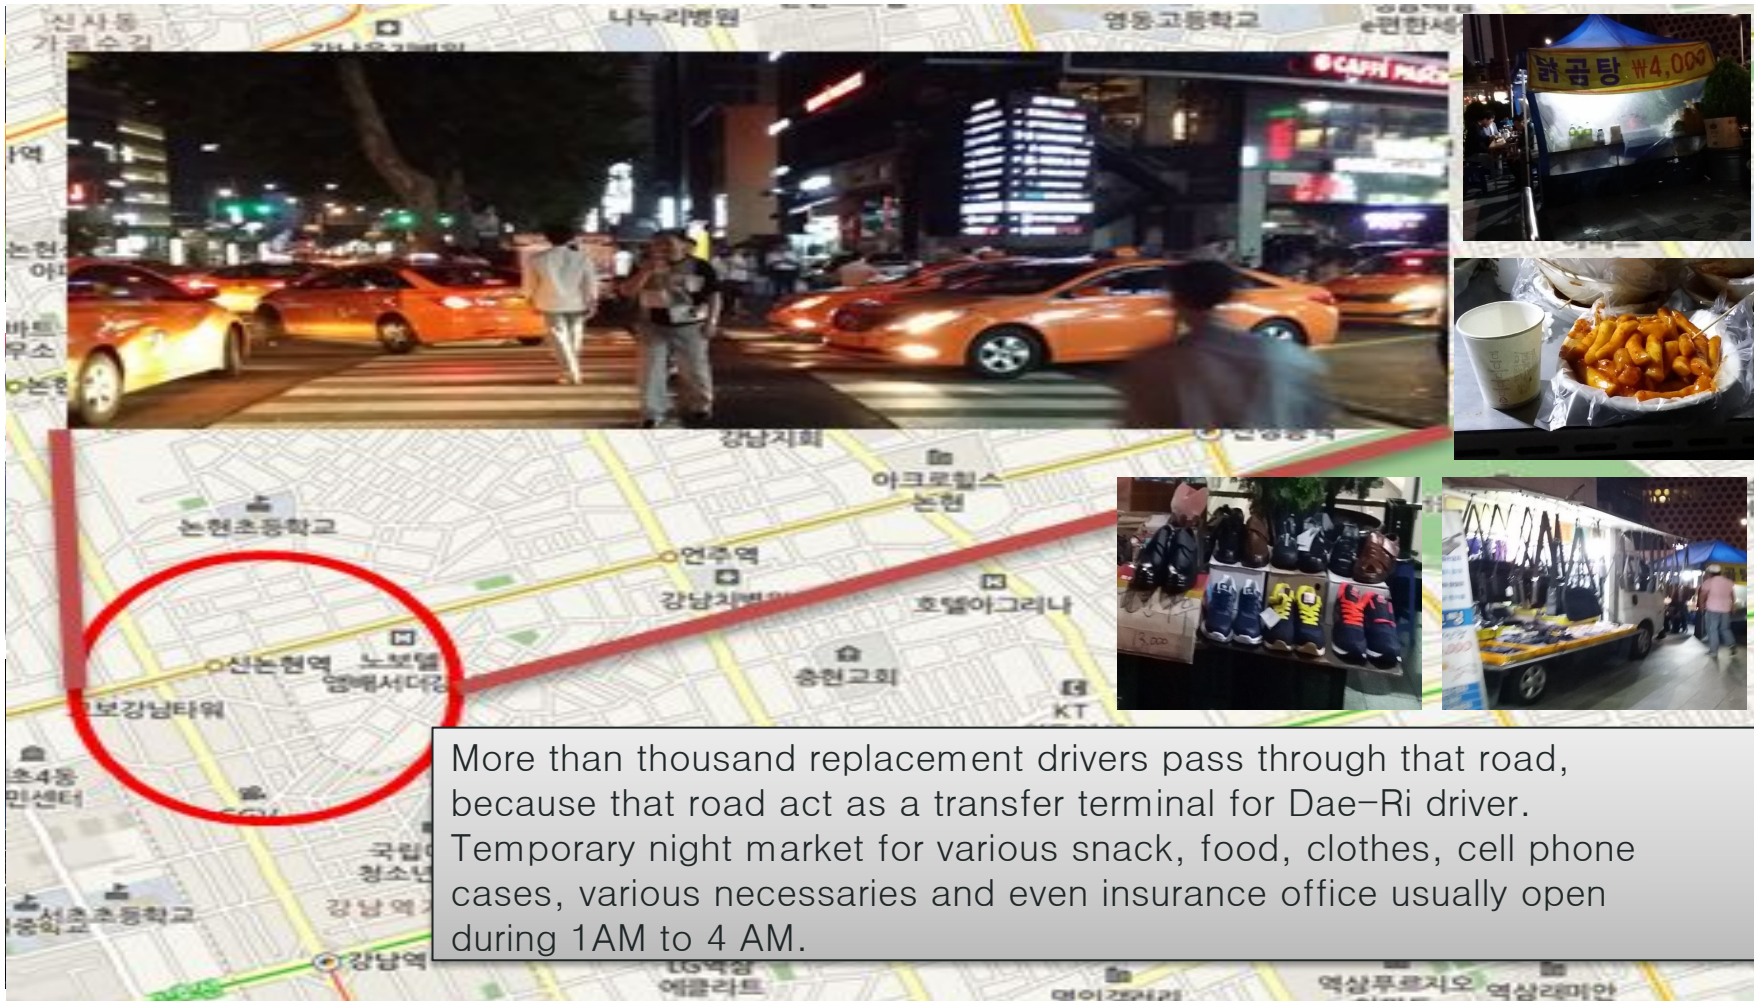

Under the current law, drivers with a blood-alcohol level of 0.05 percent and above receive a suspension of their license and those with 0.1 percent and above get their licenses revoked. The revised law toughens the limit for license suspension to a blood-alcohol level of 0.03, and for revocation, 0.08 percent.

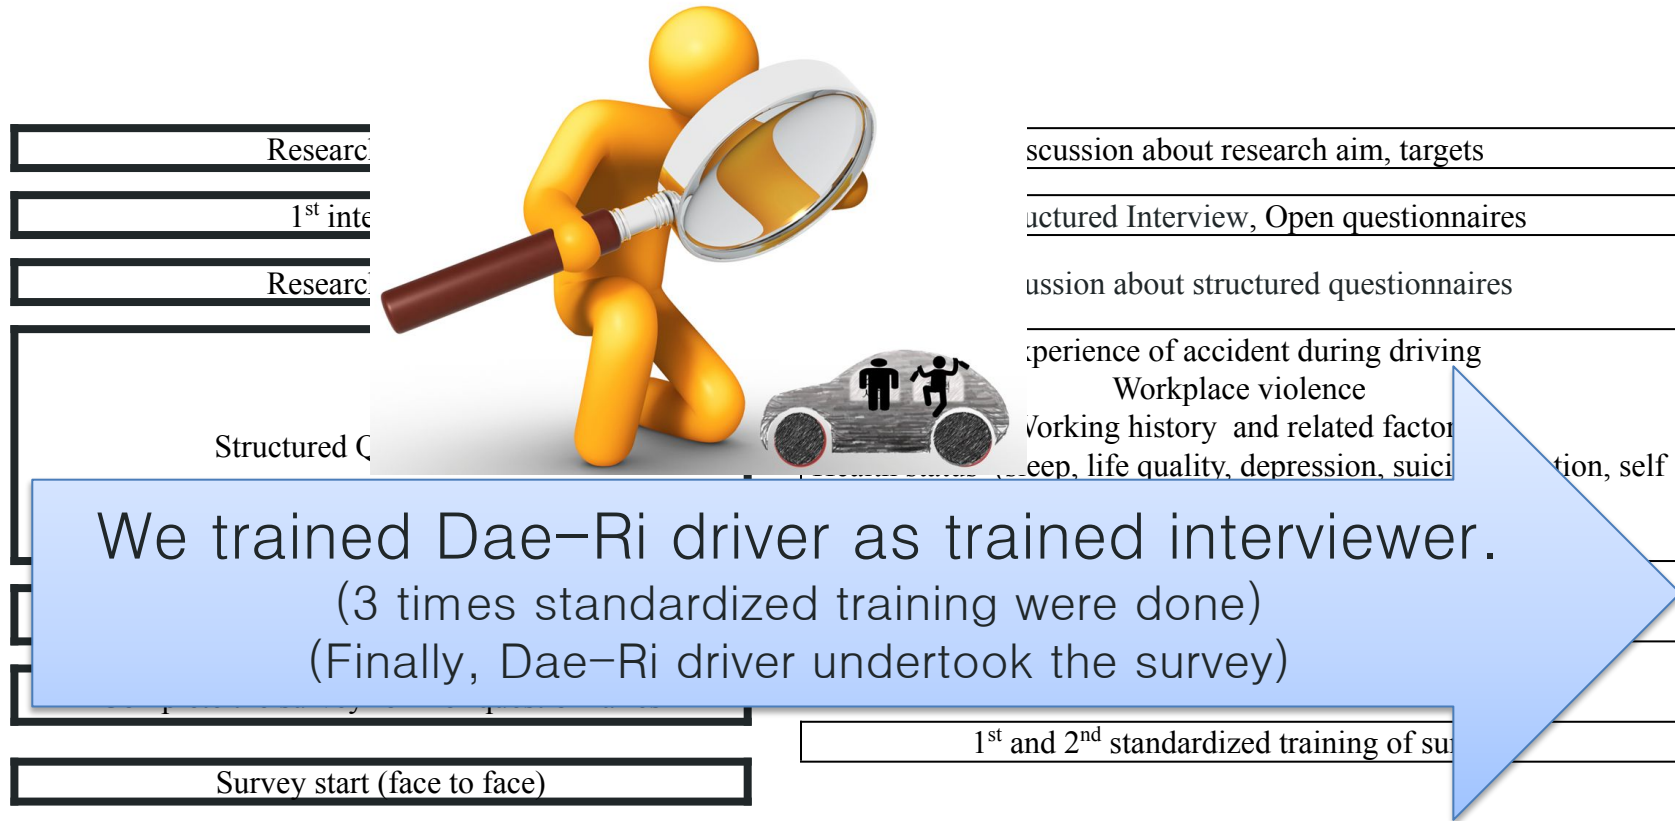

The Replacement Driver

For example, a salesman has had too much drink but he wants to be driven home with his own car. For safety, he wants to engage driver-for-hire services, so called Replacement Driver, “Daeri Driver” in Korea

More than thousand replacement drivers pass through that road, because that road act as a transfer terminal for Dae-Ri driver. Temporary night market for various snack, food, clothes, cell phone cases, various necessities and even insurance office usually open during 1AM to 4 AM.

The questionnaires were taken on the road (Replacement driver's workplace) from AM 2:00 to AM 4:30 during 10 days (3 to 12 September, 2014). Total 166 Dae-Ri drivers were participated in current study.

The Dae-Ri driver did not have any particular workplace, they walk or take rest on the road until they get order call.

So We made our office on the road (the empty underground, subway road)

1st session Results

Replacement Drivers Safety and Health is closely related to Citizens Health and Safety, because they drive car with drunken citizen.

- 10% of Replacement Drivers suffers from severe insomnia. The prevalence of **depression** was 25.0% in workers who experienced the violence more than 4 times per months, and 10.8% in workers who did not. (CES-D)

Replacement Driver (Gig Workers) attended Academy Conference of Korea Society of Occupational and Environmental Health (KSOEM 2014)

- One Symposium, and 10 poster presentation
- Use Broadcasting

Results of 1st session study 2014

Replacement driver union met the **Mayor of Seoul City** with our research report.

Seoul City gave the office for “**Resting shelter for outdoor moving workers**” at the **same place that we started participatory research** (GangNam Crossroad Station)

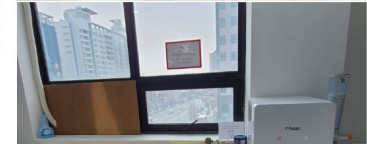

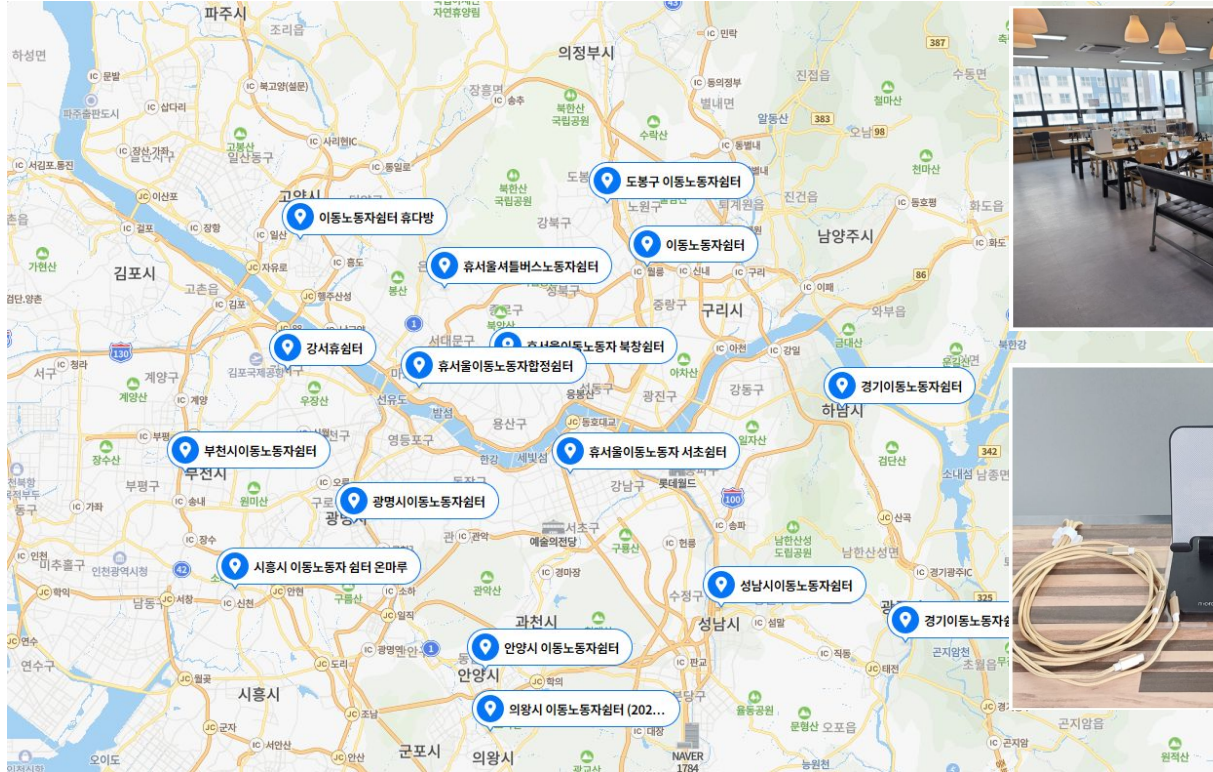

They (Replacement driver, not me) started new project for

- Job Manual for beginners
- Guideline for legal counseling and compensation
- Social Communication with IT company
- Keep going research of health and safety of replacement driver
- Made Labor Union

[illegible]

Resting shelter for outdoor moving workers

Lecture Room

2^{dn} Wave of Study (2020)

Workers Health Examination: In the Republic of Korea, business owners are obligated to take part in the workers' **general health examination** (WGHE), in accordance with the Industrial Safety and Health Act, as part of efforts to protect workers' health.

- National Health Check-up is free of charge from Korea Government for every two year. However, only 32-50% of gig economy workers get health check-up during 2 years, while 70-80% of standard worker in company get health check-up for every year.
- There are great inequality of access to health service between gig economy worker and standard worker

2021 플랫폼 노동자 건강권 조사

건강 서비스 접점으로써 의 역할 고민

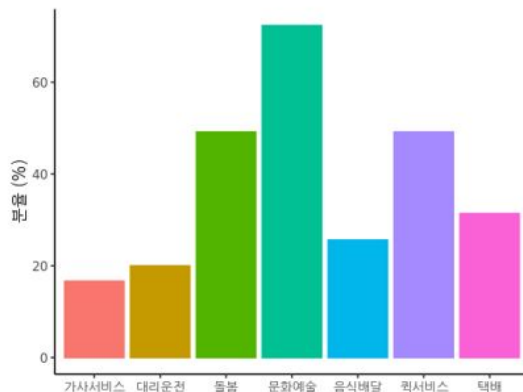

그림. 8: 비슷한 일을 하는 사람들이 모이는 모임이 있습니까?

Workers Health Examination (General H.E)

Worker visit hospital together with colleague or individually, and the schedule and status of health examination were managed by occupational health manager in workplace

Hospital system with Bus visit factory (workplace) and take health examination, and the schedule and status of health examination were managed by occupational health manager in workplace

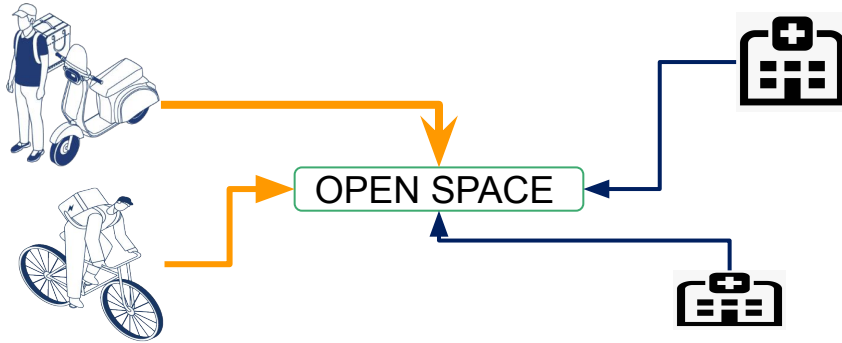

Open Space Health Examination

Because Gig economy worker have no workplace, no health manager in workplace, the assessment of general health examination was not easy in gig economy worker compare to standard workers.

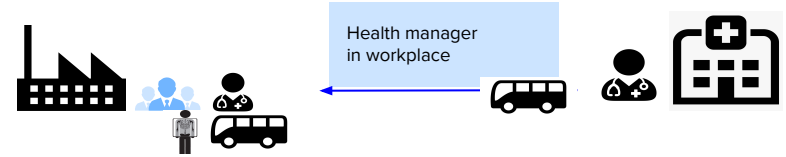

So, we try using open space to get together with other gig economy workers

- Open Space to get together with
 - Resting shelter for outdoor moving workers
 - Public Space for Korea Worker Union Room

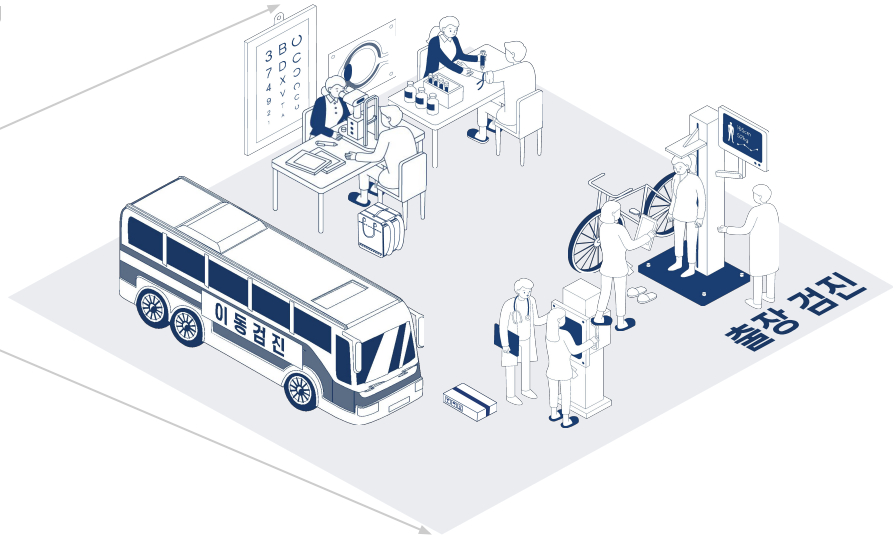

Gig Economy Worker get together with other gig economy workers in open space (instead of workplace of standard worker), the hospital system visit with bus. (More the 50 worker is minimal criteria for private hospital system to full fill the business model) We used lecture room in Resting shelter for outdoor moving workers

Hospital system with Bus visit factory (workplace) and take health examination, and the schedule and status were managed by occupational health manager in workplace

We used resting shelter as meeting place among gig economy workers and private hospital for health examination

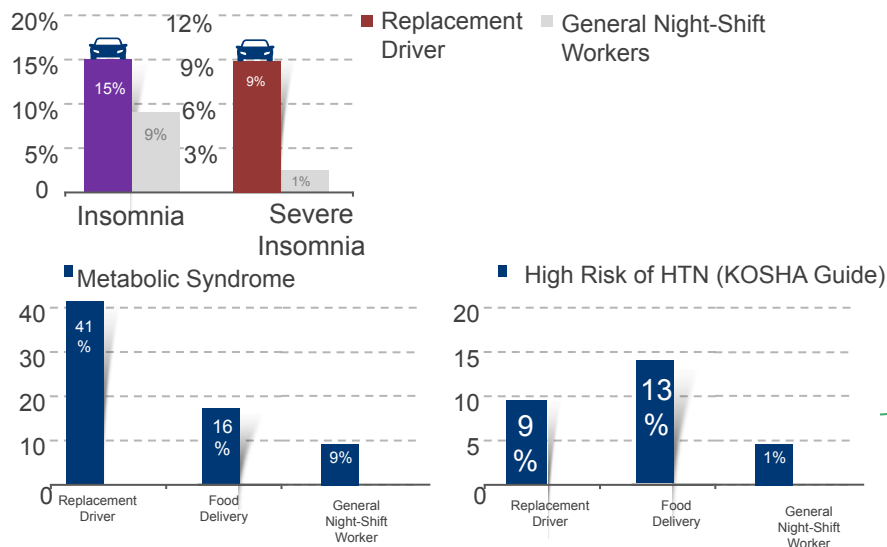

1. Enrollment and basic questions
2. Physical Examination and Biospecimen sampling
3. Chest X-ray and EKG
4. Doctor consultation

2nd Wave Result

Open Space Health
Examination

'Insomnia' 1.5 times, Severe
Insomnia 9 times

By 2nd Results

Public hearing about the “Platform Workers Mutual Aid Association” and initiation health examination model

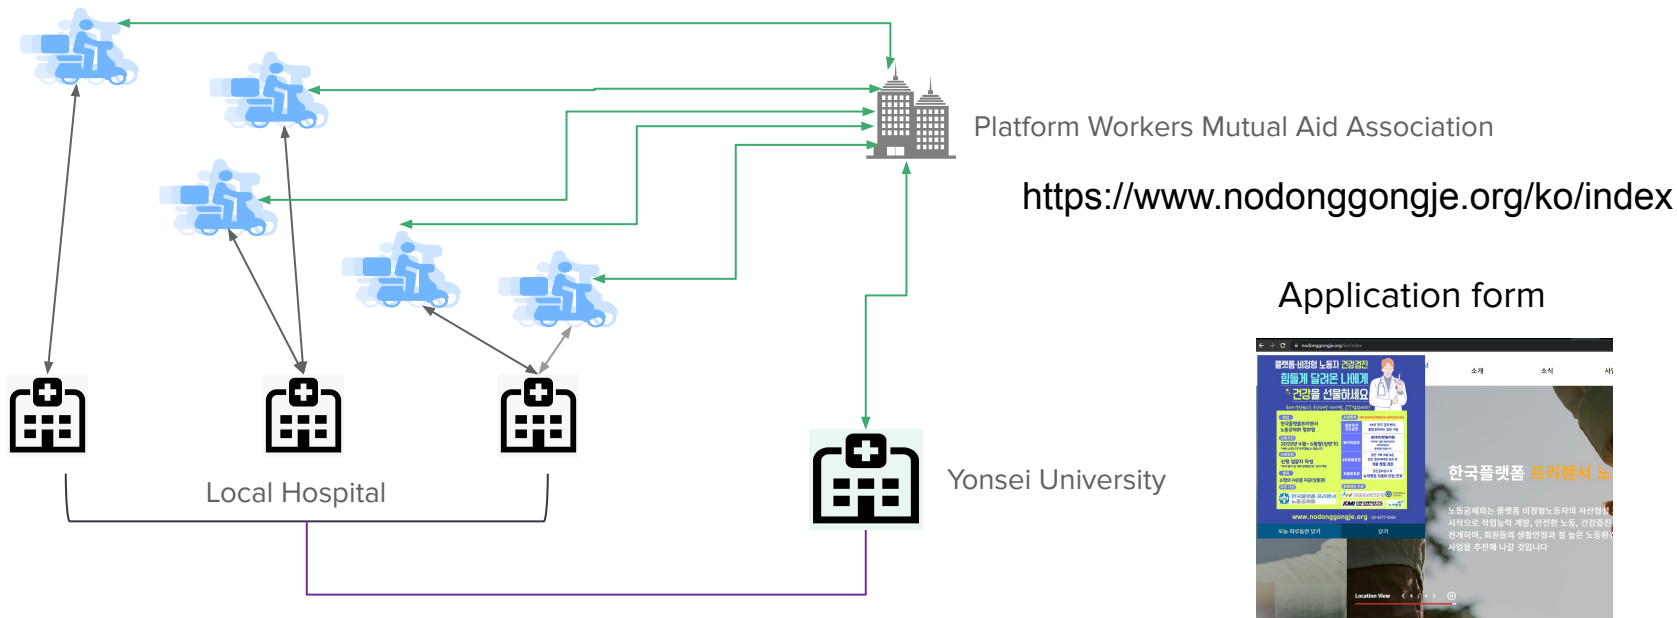

Get Fund 10 + 30 million USD\$ health care management from Social Foundation, and Ministry of health and Welfare

Participating OSHA project about Gig worker Health examination with 60 million USD\$

→ start July 2022

Plan of 2022: individual visiting and actual cost support

Gig Economy worker visit local hospital → report their actual cost for health examination to Platform Workers Mutual Aid Association → compensated

Night Moving Resting Shelter?

Shuttle bus and Resting shelter

A sad news

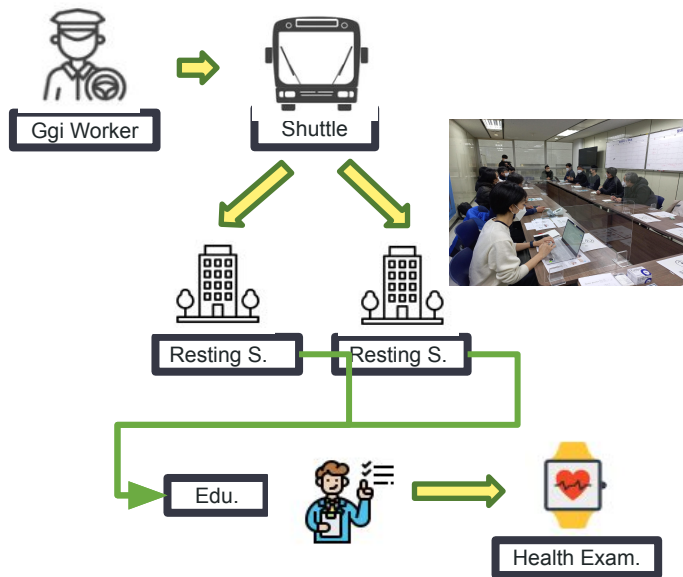

3 AM, there was car accident. after car accident, ambulance took 4 passengers to hospital. The crashed car was towed to parking lot.

In that morning, police men found a dead person under the very end seat. Because all passengers were Replacement driver, they did not know each other, and nobody knew that death.

“There were no bus, no subway. I can not walk to my home, because my last customer lived far way from my home. The taxi is too expensive to used for me. I usually used shuttle. “

There was lack of social security or connection for Replacement Driver

Night Shuttle → Resting Shelter → Mutual Fund → Health Examination

Shuttle

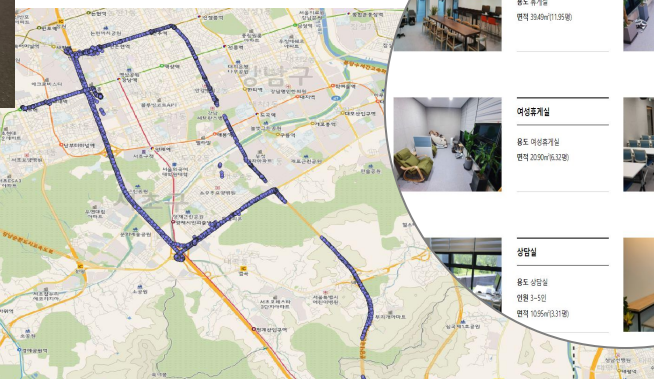

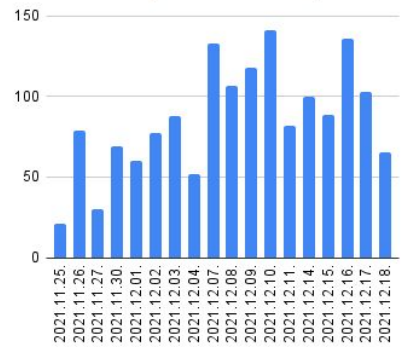

Resting Shelter

Replacement drive fall into remote area which have no public transportation, work late even after public transports stop. So, we try to make night shuttle between remote area and Resting Shelter. And the resting shelter introduce mutual fund and health examination project.

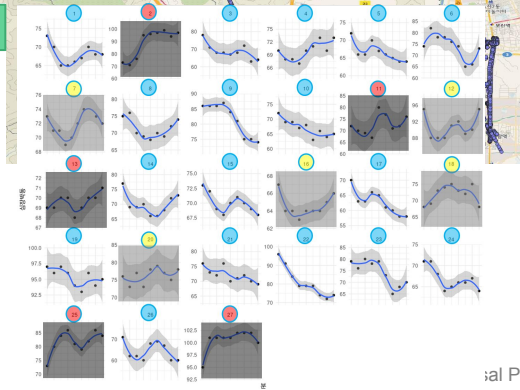

Num of Worker using Resting Shelters

전경/노

휴게실 용도 휴게실 면적 39.4㎡(11.58평)	남성휴게실 용도 남성휴게실 면적 27.86㎡(8.43평)
여성휴게실 용도 여성휴게실 면적 20.90㎡(6.33평)	강의실 용도 강의실 면적 3-15인 면적 59.85㎡(18.13평)
상담실 용도 상담실 면적 3-5인 면적 10.95㎡(3.31평)	담배실 용도 담배실 면적 9.00㎡

Download, Upload Health Examination Result

Every Korean can download their past health examination result from government site using cellphone.

Participator Research

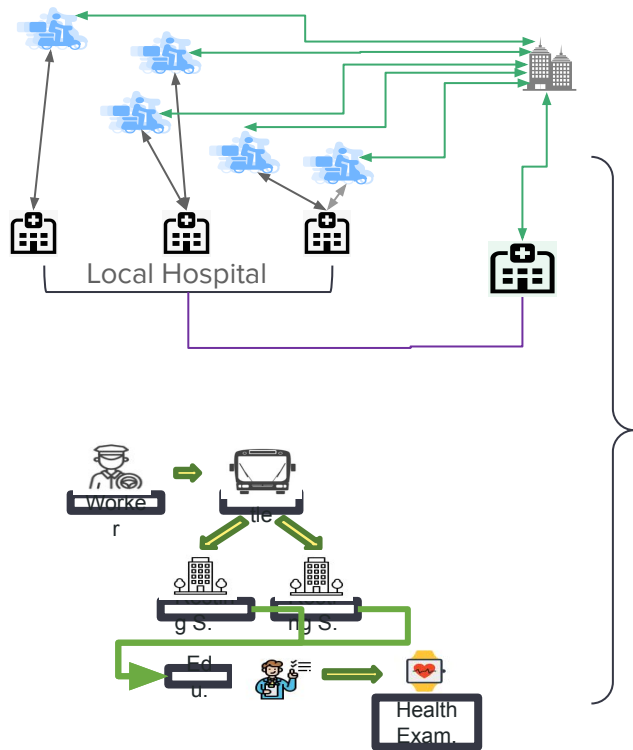

Replacement Driver Guide other replacement Driver in restring shelter to download health examination results. And Upload health examination results to Yonsei University.

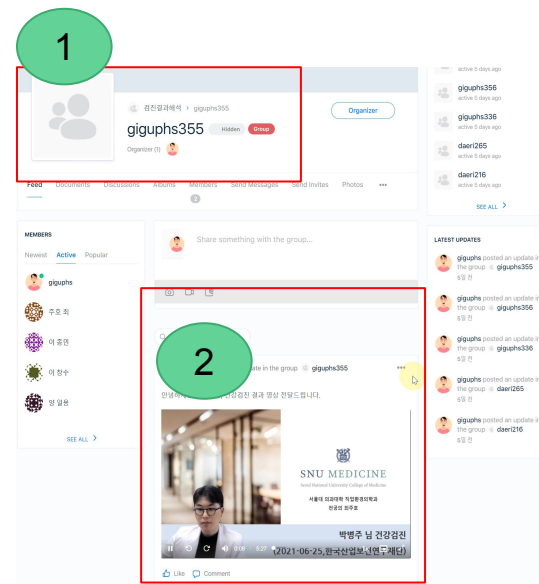

After that medical doctor and nurse counseling health status and then upload video.

Health Management

Health Examination Results

We made personal home page for every gig economy workers, to save and upload video doctor and nurse health consulting. Gig economy worker can watch video and they can chat to doctor

Online Video

What will we do next?

Research: tax system and Health management
fund of gig economy workers

(We try to get fund from Platform company which
earn money using of Gig Economy Workers)

Summary

We introduce 1st/2nd wave result of participatory research, the replacement drive made resting shelters, funds, health examination system, and social movement.

I think, the Platform Workers Mutual Aid Association or other future systemc of gig economy workers will act as occupational health and safety systemc instead of traditional workplace.

IT change the word, so occupational health also use IT to prevent workers' health

We are GigUpHS, thank you for attention
